The Problem

1 **Coordinating volunteers** between events they participate in easily becomes tedious

2 **Keeping track of** which **events** volunteers sign up for is hard through email alone

The Solution

A volunteer management platform to empower an organization's engagement and synergy with their volunteer force.

Tech Milestones

SendGrid API

- How can we notify our users about any changes?

- What technologies should we use?
  - Redis vs Server-Sent Events vs Polling vs Email

- SendGrid – an email automation API

Future Implementations

Build additional sides of the platform

Bulk email integration

Allow managers to create custom features

News / Blogging feature

Mobilize. Engage. Achieve.
